

FOR THE MEDIA

You have been provided with this group of documents to inform you of something that is actually happening in America right now that is affecting literally millions of people. You can pay no attention to these documents or you can choose to read these documents. You can choose to do nothing or you can make the choice to do your own investigation into what is presented to you here. You can take an active part by reporting on what you have learned and help in putting a stop to the biggest Fraud in the history of this country. That choice is entirely yours. You can go and inquire in legal circles or take this information to individuals that you may know in law enforcement or even in the banking and mortgage industries. You will most likely be quite shocked at some of the reactions that you get when doing so, especially when speaking with attorneys.

The truth is finally coming out about one of the most horrendous Frauds that has ever been perpetrated on the people of America. There is much speculation and discussion about whether the MEDIA in this country is “bought and paid for” by some individuals or entities. Now that you have had this information placed in your possession it is now up to you to decide where you are in the MEDIA spectrum.

Are you one who will “take this and run” and be a REAL journalist or will you be one who is so indoctrinated by the culture in this country (or silenced by money) that you will do nothing more than view this as just another conspiracy theory to be dispensed with and kept quiet? That will be up to you. This information IS CURRENTLY BEING, AND WILL CONTINUE TO BE, disseminated very rapidly from coast to coast and those who truly are the stars of journalism will be those who “take this and run” as being the biggest story of not only this new year but of this new decade.

An opportunity to literally be a part of exposing something the likes of which has never been seen in modern times has been handed to you. How will you respond? This is just a starting point. How resourceful you are in investigating is up to you.

If you have any questions about this material or would like more information, please contact the person(s) who provided this information to you. After all, you could be the next victim of this Fraud and as you will learn when you read, most likely already are.

Thank you for your time!
